

Your voice heard around the world

(See below for Arabic, Chinese, French, Hindi, Portuguese, Russian and Spanish translations)

Dear all,

One month ago we invited you to take our survey on what MSM issues matter to you most as we approach the 2010 International AIDS Conference in Vienna. Nearly 200 of you have responded so far with invaluable ideas and suggestions that will help us tailor the MSM Pre-Conference to the needs of your communities. Thank you for your participation so far!

We feel this is a great opportunity for a truly global dialogue on these very important issues. That is why the MSMGF has worked with professional translators and dedicated volunteers to make sure your voice is heard not only by speakers of your own language, but across the Arabic-, Chinese-, English-, French-, Hindi-, Portuguese-, Russian- and Spanish-speaking worlds as well.

We are very happy to announce that the first round of feedback is now online in all languages for you to read and discuss!

www.msmsgf.org/vienna_ENlang_ENcont.htm

We have seen great enthusiasm from English speakers thus far. We want to ensure equally strong participation from Arabic, Chinese, French, Hindi, Portuguese, Russian, and Spanish speakers as well. Please help us by passing the links below along to your colleagues and networks around the world!

Thank you again for speaking out! We look forward to hearing more of your ideas as the consultation continues!

Best regards,

The MSMGF
